Quarterly Report to the Pennsylvania Public Utility Commission

For the Period September 1, 2015 through November 30, 2015 Program Year 7, Quarter 2

> For Pennsylvania Act 129 of 2008 Energy Efficiency and Conservation Plan

Prepared by Pennsylvania Power Company and ADM Associates, Inc.

For

Pennsylvania Power Company Docket No. M-2012-2334395 January 15, 2016

Acronyms

C&I	Commercial and Industrial
CATI	Computer-Aided Telephone Interview
CFL	Compact Fluorescent Lamp
Phase II	Cumulative Program/Portfolio Phase II Inception to Date (Phase II Savings)
Phase II-CO	Cumulative Program/Portfolio Phase II Inception to Date including Carry
	Over Savings from Phase I
Phase II-Q	Phase II verified gross savings from the beginning of Phase II + PYTD
	reported gross savings.
Phase II-Q-CO	Phase II verified gross savings from the beginning of Phase II + verified
	Carry Over Savings from Phase I + PYTD reported gross savings
CSP	Curtailment Service Provider
CVR	Conservation Voltage Reduction
CVRf	Conservation Voltage Reduction factor
DLC	Direct Load Control
DR	Demand Response
EDC	Electric Distribution Company
EE&C	Energy Efficiency and Conservation
EM&V	Evaluation, Measurement, and Verification
GNI	Government, Non-Profit, Institutional
HVAC	Heating, Ventilating, and Air Conditioning
ICSP	Implementation Conservation Service Provider
IQ	Incremental Quarter
kW	Kilowatt
kWh	Kilowatt-hour
LED	Light Emitting Diode
LEEP	Low-Income Energy Efficiency Program
LIURP	Low-Income Usage Reduction Program
M&V	Measurement and Verification
MW	Megawatt
MWh	Megawatt-hour
NTG	Net-to-Gross
PA PUC	Pennsylvania Public Utility Commission
PY5	Program Year 2013, from June 1, 2013 to May 31, 2014
PY6	Program Year 2014, from June 1, 2014 to May 31, 2015
PY7	Program Year 2015, from June 1, 2015 to May 31, 2016

PY8	Program Year 2016, from June 1, 2016 to May 31, 2017
PYX QX	Program Year X, Quarter X
PYTD	Program Year to Date
SEER	Seasonal Energy Efficiency Rating
SWE	Statewide Evaluator
TRC	Total Resource Cost
TRM	Technical Reference Manual

1 Overview of Portfolio

Pennsylvania Act 129 of 2008 signed on October 15, 2008, mandated energy savings and demand reduction goals for the largest electric distribution companies (EDCs) in Pennsylvania for Phase I (2008 through 2013). In 2009, each EDC submitted energy efficiency and conservation (EE&C) plans—which were approved by the Pennsylvania Public Utility Commission (PUC)—pursuant to these goals. The PUC established energy savings and demand reduction goals for Phase II (June 2013 through May 2016) of the Act 129 programs. Each EDC filed new EE&C plans with the PA PUC in late 2012 for Phase II. These plans were subsequently approved by the PUC in early 2013.

Implementation of Phase II of the Act 129 programs began on June 1, 2013. This report documents the progress and effectiveness of the Phase II EE&C accomplishments for Pennsylvania Power Company (Penn Power or Company) in the 2nd quarter of Program Year 7 (PY7), defined as September 1, 2015 through November 30, 2015, as well as the cumulative accomplishments of the programs since inception of Phase II. This report also includes the energy savings carried over from Phase I that will be applied towards the Company's savings compliance targets for Phase II. The Phase I carryover values as listed in this quarterly report are based on the Company's Final Phase I report to the Commission.

The Company's EM&V contractor, ADM Associates, is evaluating the programs, which includes measurement and verification of program savings.

1.1 Summary of Achievements

Penn Power has achieved 109.8 percent of the May 31, 2016 energy savings compliance target, based on cumulative program inception to date (Phase II) reported gross energy savings¹, and 133.4 percent of the energy savings compliance target, based on Phase II-Q-CO² (or Phase II-CO until verified savings are available for PY6) gross energy savings achieved through PY7Q2, as shown in Figure 1-1. (Phase II-Q)³ is also shown in Figure 1-1.

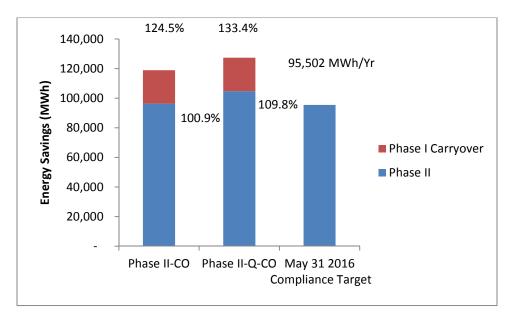

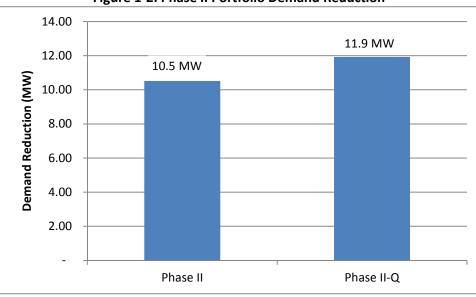

Figure 1-1: Cumulative Portfolio Phase 2 Inception to Date (Phase II) Energy Impacts

¹ Phase II Reported Gross Savings = Phase II Reported Gross Savings from the beginning of Phase II through the end of the current quarter. All savings reported as Phase II reported gross savings are computed this way.

² Phase II-Q-CO Gross Savings = Phase II verified gross savings from the beginning of Phase II including verified Carry Over Savings from Phase I + PYTD reported gross savings. The carryover portion of the Phase II-Q-CO Gross Savings listed herein is based on verified impacts reported in the Company's Final Phase I report to the Commission.

³ Phase II-Q Gross Savings = CPITD Verified Gross Savings from the beginning of Phase II + PYTD Reported Gross Savings. This excludes Phase I carry over savings. All savings reported as Phase II-Q gross savings are computed this way. Phase II Verified Gross Savings will be reported in the annual report. For the first quarter of each program year, the Company reports Phase II-Q Gross Savings as Phase II Savings as verified savings will not be reported until November 15.

Penn Power has achieved 11.9 MW of demand reduction through PY7Q2⁴.

Figure 1-2: Phase II Portfolio Demand Reduction

There are six broad groups of measures available to the low-income sector at no cost to the customer, compared to a total of 40 broad measure categories included in the Company's EE&C Plan. These groups of measures offered to the low-income sector therefore comprise 15.0% of the total measures offered. As required by the Phase II goal, this exceeds the fraction of the electric consumption of the utility's low-income households divided by the total electricity consumption in the Penn Power territory which is 10.6%.⁵ The Phase II reported gross energy savings achieved in the low-income sector is 12,032 MWh/yr⁶; this is 12.5% percent of the Phase II total portfolio reported gross energy savings. This exceeds the goal of 4.5% of the Phase II savings.

Penn Power has also achieved 140.6% of the May 31, 2016, energy reduction compliance target for government, nonprofit and institutional sector, based on Phase II reported gross energy savings, and

⁴ There is no compliance target for demand reduction in Phase II.

⁵ Act 129 includes a provision requiring electric distribution companies to offer a number of energy efficiency measures to low-income households that are "proportionate to those households' share of the total energy usage in the service territory." 66 Pa.C.S. §2806.1(b)(i)(G). The Company's Act 129 EE&C Plan includes hundreds of distinct measures that are consolidated into 128 archetypal measures and 40 broad measure categories. For low-Income reporting purposes, six of these 40 broad measure categories are offered at no cost to the Company's low-income residential customers.

⁶ These estimates are extrapolated from official PY5 verified results, which were calculated through participant surveys.

143.3% of the target based on Phase II-Q-CO (or Phase II-CO until verified savings are available for PY6) gross energy savings achieved through PY7Q2, as shown in Figure 1-3.

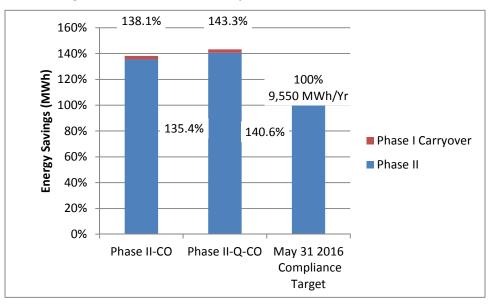

Figure 1-3: Government, Nonprofit, and Institutional Sectors

1.2 Program Updates and Findings

• Appliance Turn-in:

On November 23, 2015, JACO Environmental unexpectedly ceased appliance recycling operations. The Company is working to ensure that all customers' owed rebates are paid. Prior to the program suspension, over 390 appliances were picked up and recycled during PY7Q2.

• Energy Efficient Products:

The program continues to track ahead of goal in all four FirstEnergy PA EDCs primarily due to POS lighting and the consumer electronics program.

• Home Performance:

New Construction: During the quarter, 72 homes were completed under the program. Program participation in Penn Power remains steady.

Online Audit: Penn Power continues to send Energy Conservation Kits to customers as a result of completing an Online Audit. During PY7Q2, over 300 kits were delivered to Penn Power customers.

Comprehensive Audit: The program continues to track above goal in Met-Ed primarily due to the work being performed by a particular contractor. The Company continues to recruit new contractors into program and market the program to customers. B-monthly program webinars are also hosted with contractors to go over best practices and program updates.

Behavior Modification: Approximately 35,000 customers across Penn Power's service territory receive Home Energy Reports. These reports show a customer's energy usage, highlight PA Act 129 approved programs, and provide tips to help save energy. Reports received in November, highlighted a campaign titled "Winter of 68." This will show the benefits of having a thermostat set to 68 degrees over a series of reports.

Opt-in Kits: During PY7Q2, over 90 Opt-In Kits were delivered to customers in Penn Power upon enrollment into the program.

Schools Education and Kits: Final performances of the "Energized Guyz" for Phase II were completed in November 2014 and requested kits were shipped through January 2015. Over 3,440 students participated in the School Education program from inception to date.

• Low Income / WARM:

The Program continued its marketing efforts to identify and reach income-qualified customers in the Penn Power territory during PY7Q2.

Contracts were awarded to three Quality Assurance vendors that bid on the Request for Proposal (RFP) for Quality Assurance Inspectors. The successful bidders were Pure Energy Coach, ACTION Housing, and Performance Systems Development (PSD). Their work will begin January 1, 2016.

The Penn Power Annual Contractors meeting was held in October and was attended by more than 55 contractors. Topics included PA Act 129 updates, procedure changes, new measures, etc.

Performance reviews were conducted with WARM installation contractors by program administrators to assess their workmanship during the past year.

Staff attended the PUC Be Utility Wise event held in September to explain Penn Power's low-income programs to social service agencies.

WARM Extra Measures/WARM Plus: One heat pump water heater installation was completed in the Penn Power area during PY7Q2.

Procedures for coordination with Columbia Gas's Low-Income Usage Reduction Program and the WARM Program have been finalized and all aspects of joint delivery are underway.

Multi-Family: Penn Power continues to identify and serve Multi-Family units/customers for WARM Plus.

• C/I Small Energy Efficient Equipment:

This quarter, the ICSP held three (3) outreach events across the Penn Power region in September and October, 2015.

The main focus of these events is to:

a. Increase participation in this program;

b. Motivate customers and program allies to move forward with their projects as the Phase II Programs will end effective May 2016;

c. To provide a broad overview of Phase III.

Penn Power continues to receive and process applications under Phase II for this program. The ICSP continues with its past strategy to conduct outreach campaign through program ally network, direct marketing and one-on-one outreach by the program staff.

• C/I Small Energy Efficient Buildings:

This quarter, the ICSP held three (3) outreach events across the Penn Power region in September and October, 2015.

The main focus of these events is to:

- a. Increase participation in this program;
- b. Motivate customers and program allies to move forward with their projects as the Phase II Programs will end effective May 2016;
- c. To provide a broad overview of Phase III.

The ICSP continues with its outreach and marketing efforts that are focused on direct marketing to building owners/operators, design/build contractors, and engineering and architectural firms by promoting the Building Program Guidelines document plus number of marketing pieces that are targeted at professionals and decision makers in this market segment. Based on the year-to-date results, the ICSP has revised its 60-Day outlook marketing plan to build a momentum in this program. An uptick in new project applications coming through this program are also a result of outreach to upstream program allies. No kits were shipped to customers this quarter.

• C/I Large Energy Efficient Equipment:

This quarter, the ICSP held three (3) outreach events across the Penn Power region in September and October, 2015.

The main focus of these events is to:

- a. Increase participation in this program;
- b. Motivate customers and program allies to move forward with their projects as the Phase II Programs will end effective May 2016;
- c. To provide a broad overview of Phase III.

Penn Power continues to receive and process applications under Phase II. The ICSP markets this program through program ally network and one-on-one outreach by the program staff.

• C/I Large Energy Efficient Buildings:

This quarter, the ICSP held three (3) outreach events across the Penn Power region in September and October, 2015.

The main focus of these events is to:

- a. Increase participation in this program;
- b. Motivate customers and program allies to move forward with their projects as the Phase II Programs will end effective May 2016;
- c. To provide a broad overview of Phase III.

The ICSP continues with its outreach and marketing efforts that are focused on direct marketing to building owners/operators, design/build contractors, and engineering and architectural firms by promoting the Building Program Guidelines document plus number of marketing pieces that are targeted at professionals and decision makers in this market segment. Based on the year-to-date results, the ICSP has revised its 60-Day outlook marketing plan to build a momentum in this program. An uptick in new project applications coming through this program are also a result of outreach to upstream program allies. No kits were shipped to customers this quarter.

• Government & Institutional:

This quarter, the ICSP held three (3) outreach events across the Penn Power region in September and October, 2015.

The main focus of these events is to:

- a. Increase participation in this program;
- b. Motivate customers and program allies to move forward with their projects as the Phase II Programs will end effective May 2016;
- c. To provide a broad overview of Phase III.

ICSP promoted these outreach events via the Program website, e-Blast, program ally newsletter and EnergyLine newsletter The Company also utilized Customer Support Account Mangers and Area Managers to promote events to assigned accounts & GNI customers. The ICSP continues to market

the program through traditional marketing channels plus a direct one-on-one outreach by the program staff.

1.3 Evaluation Updates and Findings

- Appliance Turn-in
- Energy Efficient Products
- Home Performance
- Low Income / WARM
- C/I Small Energy Efficient Equipment
- C/I Small Energy Efficient Buildings
- C/I Large Energy Efficient Equipment
- C/I Large Energy Efficient Buildings
- Government & Institutional

ADM has communicated to the Company's implementation staff the data collection requirements and calculation procedures outlined in the 2015 PA TRM for measures offered under each program. Nonresidential lighting projects with ex ante savings above 800 MWh and other nonresidential projects with ex ante savings above 400 MWh are sampled with certainty and evaluated on an ongoing basis by ADM. Nonresidential lighting projects with ex ante savings above 500 MWh and other nonresidential projects with ex ante savings above 250 MWh are reviewed for evaluability on an ongoing basis by ADM, and data acquisition requirements for these projects are communicated to the ICSP. ADM has pulled initial samples for all nonresidential programs. On-site inspections for sampled nonresidential projects are expected to start in February 2016.

2 Summary of Energy Impacts by Program

A summary of the reported energy savings by program is presented in Figure 2-1 and Figure 2-2.

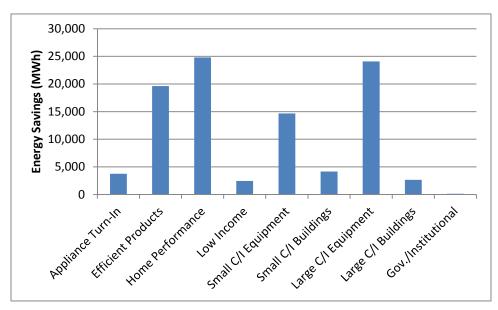

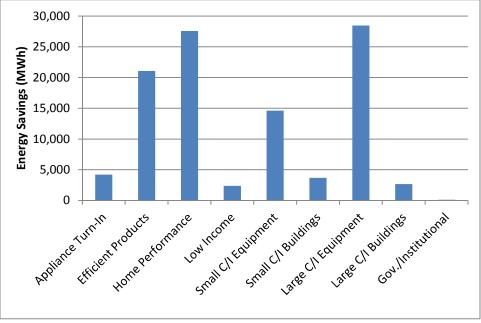

Figure 2-1: Phase II Reported Gross Energy Savings by Program

A summary of energy impacts by program through PY7Q2 is presented in Table 2-1.

Table 2-1: EDC Reported Participation and Gross Energy Savings by Program (MWh/Year)

	Participants			Reported Gross Impact (MWh/Year)			
Program	IQ	PYTD	Phase II	IQ PYTD Phase II			Phase II- Q ⁷
Appliance Turn-In	394	926	4,438	448	1,055	3,763	4,206

⁹ Phase II cumulative demand impacts reflect PY5 verified savings and reported savings for PY6 and PY7.

4 Summary of Finances

4.1 Portfolio Level Expenditures

A breakdown of the portfolio finances is presented in Table 4-1.

Table 4-1: Summary	of Portfolio Finances
--------------------	-----------------------

	Quarter 2 (\$000)	PYTD (\$000)	Phase II (\$000)
EDC Incentives to Participants	\$311	\$769	\$5,436
EDC Incentives to Trade Allies	\$0	\$0	\$0
Subtotal EDC Incentive Costs	\$311	\$769	\$5,436
Design & Development	\$15	\$27	\$66
Administration, Management and Technical Assistance ^[1]	\$431	\$888	\$6,126
Marketing	\$36	\$86	\$593
Subtotal EDC Implementation Costs	\$483	\$1,001	\$6,785
EDC Evaluation Costs	\$72	\$150	\$453
SWE Audit Costs	\$36	\$78	\$704
Total EDC Costs ^[2]	\$902	\$1,997	\$13,379
Participant Costs ^[3] Total TRC Costs ^[4]			

NOTES

Per PUC direction, TRC inputs and calculations are required in the Annual Report only and should comply with the 2013 Total Resource Cost Test Order approved August 30, 2012.

Costs shown above include startup expenses prior to June 1, 2013.

Negative values are the result of prior period adjustments in the current quarter and are reflected throughout the program level tables.

1 Includes the administrative ICSP (rebate processing), tracking system, general administration and clerical costs, EDC program management, ICSP program management, general management oversight major accounts and technical assistance

² Per the 2013 Total Resource Cost Test Order – Total EDC Costs, here, refer to EDC incurred expenses only. Total EDC Costs = Subtotal EDC Incentive Costs + Subtotal EDC Implementation Costs + EDC Evaluation Costs + SWE Audit Costs.

³ Per the 2013 Total Resource Cost Test Order –Net participant costs; in PA, the costs of the end-use customer.

4.2 Program Level Expenditures

Program-specific finances are shown in the following tables.

Table 4-2: Summary of Program Finances – Res Appliance Turn-In

	Quarter 2 (\$1,000)	PYTD (\$1,000)	Phase II (\$1,000)

Table 4-7: Summary of Program Finances – Small C/I Efficient Buildings

NOTES

Per PUC direction, TRC inputs and calculations are required in the Annual Report only and should comply with the 2013 Total Resource Cost Test Order approved August 30, 2012.

Costs shown above include startup expenses prior to June 1, 2013.

¹ Includes the administrative ICSP (rebate processing), tracking system, general administration and clerical costs, EDC program management, ICSP program management, general management oversight major accounts and technical assistance

² Per the 2013 Total Resource Cost Test Order – Total EDC Costs, here, refer to EDC incurred expenses only. Total EDC Costs = Subtotal EDC Incentive Costs + Subtotal EDC Implementation Costs + EDC Evaluation Costs + SWE Audit Costs.

³ Per the 2013 Total Resource Cost Test Order –Net participant costs; in PA, the costs of the end-use customer.

	Quarter 2 (\$1,000)	PYTD (\$1,000)	Phase II (\$1,000)
EDC Incentives to Participants	\$45	\$58	\$910
EDC Incentives to Trade Allies	\$0	\$0	\$0
Subtotal EDC Incentive Costs	\$45	\$58	\$910
Design & Development	\$0	\$1	\$2
